HOW TO APPLY

The home institution may send an email to exchange@woxsen.edu.in with the student details.

This shall be done at least 2 months prior.

WHEN SHOULD YOU ARRIVE?

You should arrive at least 2 days prior to the commencement of the term. Late arrivals may be accepted under certain conditions such as health or travel / diplomatic restrictions

REQUIRED DOCUMENTS

No	Pre-Arrival Checklist
1	Ensure that you obtain visa from Indian Embassy/ High Commission
2	Also assure that you meet Medical fitness standard before you leave your country and a medical insurance. You can also buy a local one.
3	Also ensure that you have taken all the required vaccinations (Typhoid Vaccine, Hepatitis Vaccine), to avoid medical complications while you are in India (though it is not mandatory)
4	If there are certain medicines that you are supposed to consume due to any medical reason prescribed by a doctor please carry them along. It is also suggested to carry the prescription of that medicine for any further reference
5	Request and register with the Woxsen International Office for the pick service from the Airport at least two weeks prior to arrival and provide your complete flight details.
6	Also ensure that you bring the letter of admission issued by the Admissions Office
7	Make sure that you carry at least 5 passport size photographs
8	Keep all the valuables, important documents (Passport, Visa papers) in the Cabin baggage, to avoid the possibility of their getting misplaced during transit
9	Keep all the contact phone numbers handy in case of need
10	Temperature Ranges: Winter (11-20 degrees Celsius) Summer (30-35 degrees Celsius). Light warm clothes must be brought accordingly.
11	Whilst everything is available in India, however try to get all that you would require during

No	Pre-Arrival Checklist
	the initial few days. All essentials can be availed from the nearby market.
12	The electric standard in India works on 240 V. So, ensure that you have an adapter for your mobile or laptop if it operates on a different voltage in your country. Also the electric sockets are 2 or 3 pin so ensure that you carry a converter in case required.

Post-Arrival Support & Information

On your arrival in India, there are certain points that you should keep in mind.

Customs Formalities:

1. Foreign students in India are generally required to make an oral baggage declaration of the possession of baggage and foreign currency as soon as they land in India. Under this they are also required to obtain the Currency Declaration Form from the Customs. The students should also fill in the Disembarkation Card (Arrival card) handed over to them by the airline during the course of the flight. There are two channels for customs clearance.
2. Green Channel: For passengers not in possession of any dutiable articles or unaccompanied baggage. Red Channel: For passengers in possession of dutiable articles or unaccompanied baggage or high value articles. High value articles are to be entered on the tourist Baggage Re-Export Form.

VISA

International students who wish to study in India should obtain a Student Visa before travelling to India.

Once the student has been issued a confirmed admission letter to study at the Business School, he/she should immediately apply for Student Visa.

International students should make sure that the Student Visa is endorsed to Woxsen University by the visa issuing authority.

Also, if you have entered India on basis of documents provided by Woxsen University then it is your responsibility to ensure that you directly join and report to the institution. The Visa endorsed on the name of Woxsen University or obtained on the basis of Woxsen documents cannot be used for any other purpose like employment, admission to any other university / college / institute / academy etc. or for non-regular (distance/online) mode of education.

After reaching Woxsen, students have to get the visa verified by the concerned authorities and have to deposit a copy of the valid visa.

It is the responsibility of the student to ensure that throughout his/her study period student is on valid visa.

In case the initial visa is not endorsed for the complete duration of the programme or student has to extend the stay because he/she is not able to complete the programme in the stipulated time then the student should apply for the extension of the visa before visa expires.

It is the responsibility of the student to ensure that visa should be applied well in advance and time. It generally takes 3-8 weeks to get the Indian Visa thus it is advisable to apply for the visa accordingly and consult the Indian High Commission/Embassy if required.

The following questions will be helpful for getting exact answers for the pre-determined queries in your mind related to Indian Student Visa.

What is a Student Visa?

Student Visa is a visa specifically for the students wanting to come to India for education purpose. Generally Student Visas are issued for the duration of the academic course of study or for a period of five years whichever is less, on the basis of letters of admission from Universities/recognized colleges or educational institutions in India. However it is the discretion of the Indian High Commission to decide the duration of the Student Visa. The children of NRIs and PIOs cardholders need not procure a Student Visa. Other international students need Student Visa or Research Visa for Doctoral level courses.

What are the pre-requisites for procuring a Student Visa?

To apply/ be eligible for a Student Visa, you need to conform to the following conditions:- If you are on Government of India scholarships, the respective Indian Missions would be advised by Indian Council for Cultural Relations (ICCR) to issue a regular Student Visa after your admission in an Indian university/Institute is confirmed.

If you are coming as a self-financing student, you need to produce confirmed letters of admission from universities or recognized colleges and institutions in India for obtaining the regular Student Visa.

If you are coming as a research student, synopsis of the research project countersigned by the sponsoring institution in India along with letter of approval and No Objection Certificate (NOC) from the concerned Ministries in India should be submitted for necessary visa.

Can I get my Tourist Visa converted to a Student Visa?

If you come to India on Tourist or any other type of Visa, you cannot get that Visa changed to Student Visa. According to the government regulations, if an international student coming to India on a Tourist or any other type of Visa (except a Student Visa), obtains admission into a university or any institution in India, the student will be required to return to his/her home country and obtain a new visa (i.e. the Student Visa) from the Indian mission there.

Are there any rules and regulations that I need to conform to while applying for Student Visa?

Yes, while applying for the visa you need to keep in mind the following regulations:

1. Passport valid for a minimum of six months beyond the date of intended departure from India should accompany the visa application.

2. Students holding other nationalities (other than the country where applying for visa), should submit proof of long-term (at least three years)/ permanent residence in the country (where applying).
3. For citizen of other countries, a reference has to be made to their country of residence for which an additional fee is applicable and will involve extra processing time. Please refrain from making inquiries about the status of application during this time.

What should I do for extension of my Student Visa?

In case you want to get your Student Visa extended you should approach the local Foreigner Regional Registration Offices (FRROs) / District Superintendents of Police (FROs) with authentic certificate, proof of adequate financial standing etc. The Visa can be extended for a period of one year at a time up to the duration of the course or 5 years whichever is less for students pursuing full time and regular course in a reputed and recognized university or institution, subject to due sponsorship by the Institution and nothing adverse against the foreigner.

The following documents are required to be submitted at the time of Visa Extension*:

1. Visa Extension form
2. 1 Recent passport size photographs
3. Bonafide certificate from College/University/Institute (In original)
4. Copy of passport/VISA/Registration Book
5. Proof of residence
6. Passport and Registration Book in original

This process can be done online*

Will visa fee be charged from foreign students every year?

Visa fee is charged once at the time of issuance of Student Visa for completion of the course or for 5 years whichever is less.

In case of 'Provisional Student Visa' when a student seeks regular admission in any college/university then onetime fee is charged which is valid for the duration of the course or for 5 years whichever is less.

If the visa is issued for a period less than the duration of the course, then the visa would be extended by the concerned authorities without charging any additional fees.

Can foreign students with Indian Student Visa visit the restricted/prohibited areas in India?

Yes, foreign students can visit the restricted and prohibited areas in India after getting a valid Resident Permit as visa alone is not sufficient to visit such places.

Disclaimer: Information provided here is based on data/information available on various public domains. It is the student's responsibility to comply with all Visa or all other formalities as defined by government from time to time. Thus it is advised to visit Ministry of External Affairs website for the most updated information and towards any complications and hassles.

General Information Related to Foreigner Regional Registration

It is part of the normal mandatory process that within the stipulated timeframe of arrival in India, the student has to register his/ her name with the police in the designated Foreigner Regional Registration Office (FRRO).

The time frame or rules for the FRRO may vary from 24 hours to 14 days of arrival depending on the country of origin, thus seek the most updated information from the Ministry of External Affairs website.

A student with a PIO card also must register at the FRRO. Only OCI card holders need not register.

Woxsen University would only provide necessary assistance in this regard and it is the responsibility of the students to get the registration done and provide the copy of the FRRO certificate to Woxsen within the stipulated time as prescribed by the institution from time to time.

The applicable processing fees for the FRRO/Visa extension/immigration processing fees and other related expenses have to be additionally borne by the student normally ranging between INR 1500/- and 2000/-.

It is also the responsibility of the student to inform designated FRRO in case they are leaving the country (both in case of temporary movement like going for holidays and also in case students want to permanently leave the country because the programme is over or students want to discontinue the programme or student has been expelled or have been denied admission.)

Students are not required to register himself/herself on each visit as long as he/she is visiting on the same visa on which he/she is registered earlier. However, the registered foreigner needs to report to FRRO, if; re-enters India on a fresh visa.

Further, if the registered foreigner obtains a new passport during the validity of his registration and visa, then the foreigner is required to get the visa transferred on to his new passport from FRRO.

In case the initial FRO certificate is not endorsed for the complete duration of the programme or student has to extend the stay because he/she is not able to complete the programme in the stipulated time then the student should apply for the extension of the FRO before it expires.

Note: It is the student's responsibility to comply with all the visa/foreigner registration or other formalities as defined by the Govt. of India/ Govt. of Maharashtra/ any other authority, from time to

time thus it is advised to visit Ministry of External Affairs website regularly to avoid any legal complication and hassles.

How to Adjust to the New Environment?

When you leave your home country and come to a new place it is always a learning experience for you. You will come across different environment like different cultures, customs, food, climate, etc. You will get a lot to learn and experience but sometimes it may be that you find it difficult to adjust to the changes you come across. Following are a few points that may help your transition and adjustment in a new culture as smooth as possible:

1. **Open Mindedness:** Keep your opinions flexible and receptive to the changes around is very important for intercultural adjustment.
2. **Sense of Humor:** Develop a good sense of humor as in a new culture there are many things that may make you to weep, get angry, be annoyed, embarrassed or discouraged, the ability to laugh off things will help to guard you against despair.
3. **Communicativeness:** Develop an ability and willingness to communicate your feelings and thoughts to others, verbally or non-verbally. You may contact the on campus psychological counselors who provide confidential and free professional counselling and support.
4. **Flexibility and Adaptability:** The ability to respond to or tolerate the ambiguity of new situations is very important for intercultural success. You should keep options open and develop a judgmental behavior as this will help you to adjust well to a new environment.
5. **Curiosity:** You should develop curiosity to know about other people, places, ideas, etc. which will help you to learn many things and adapt easily to the new environment.
6. **Positive and Realistic Expectations:** You should develop positive and realistic expectations for an intercultural experience and successful adjustment overseas. You should make sure that you set small goals that you can achieve every day.
7. **Tolerance for Differences and Ambiguities:** You should develop a sympathetic understanding for beliefs or practices differing from yours.
8. **Positive Regard for Others:** The ability to express warmth, empathy, respect and positive regard for other persons will help you adjust easily with the new people and environment.
9. **A Strong Sense of Self:** A clear, secure feeling about oneself helps you to be neither weak nor overbearing your relations with others. Persons with a strong sense of themselves stand up for what they believe but do not cling to those beliefs regardless of new information, perspectives or understandings which they may encounter.
10. **Keep in Touch:** Keep in regular touch with your family and friends by writing email, letters or talking on the phone. Also keep in contact with the people you meet during orientation

for International Students.

11. **Take Care of your Health:** You must take plenty of exercise and eat healthy and nutritious diet.
12. **Participate:** Get involved in an activity that will help you meet people and to make new friends. You can join various student clubs and participate in their activities.
13. **Make friends:** Make friends with international students, whether from your own culture or from others, as they will understand your feelings. Also try to make friends with the local students so you can learn more about each other's culture. Be prepared to take the first step and find activities which will give you a common interest with Indian students.
14. **Correlate:** Look for similarities between your culture and the new culture. You may keep familiar things around you that have personal meaning, such as photographs or ornaments.
